Vol.20, No.2

TECH TOPICS

GOOGLE SUITE: Central Catholic is using Google Suite apps for sharing virtual content, assigning virtual activities, providing collaboration opportunities, and integrating critical thinking skills. In transitioning to Google Suite apps, students have become acclimated to such components as Google Docs, Google Slides, and Google Sheets. While there are always growing pains associated with new tasks, we are proud to say that students at Central Catholic are provided an excellent curriculum imbedded with a variety of tech experiences. Our students will graduate confident in the knowledge that they can proficiently work with a variety of tech tools.

ADVICE for SUCCESS

Students need YOU in order to be resilient and successful academically, especially during this era of COVID-19. So what can you, as a parent, do? Help your child stay organized by checking in with them on classes and homework daily. Have your child login to Google Classroom and show you assignments. Let them “teach” you how to login, as well as use Google Docs, Slides, and Sheets. Have continual conversations with your child about adhering to deadlines and communicating with teachers. Have a set time for your child to work on academic assignments. If a child doesn’t have assignments, encourage them to broaden their learning by conducting independent research on a topic. Together, we will help develop students into lifelong learners!

VIRTUE = STRENGTH

COURAGE is the theme of October virtues. During this month, teachers will be discussing the virtues of toughness, bravery, and valor as they relate to courage and the Cardinal Virtue of prudence. Look for videos and conversation opportunities to talk about these virtues with your child.

FAMILY
SPIRITUAL
ACTIVITY:

Attend Mass as a
family; invite
someone to join
you!
